Experienced Installation Team

Our in-house installation team can ensure the installation of your Container Dome is simple and stress free.

Because we have the experience and the know-how, we can get the job done easily, safely, and on time.

We are licenced builders, and our in-house installation team are fully ticketed and qualified to carry out any installation project regardless of the size.

We adhere to all standard WHS regulations, but also understand that clients can have individual site requirements as well. At Container Domes Australia, we will work with you to ensure all paperwork is in order and procedures are site compliant.

Australia's Large Span Shelter Experts

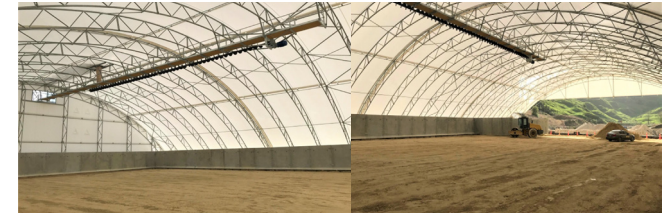

If you require a high quality, cost-effective Large Span Shelter for your site; Container Domes Australia has the expertise to custom design the perfect solution for all your on-site requirements.

We design our shelters with an easy, safe installation process in mind while still maintaining superior integrity, quality and strength. All of our frames and covers are to the highest Australian design standards and our ISO 9001 and ISO 45001 certification ensures we are continuously improving our business to meet growing industry and customer expectations.
